

Mini project 2 result

Mahmoud aboelfotoh 201601022

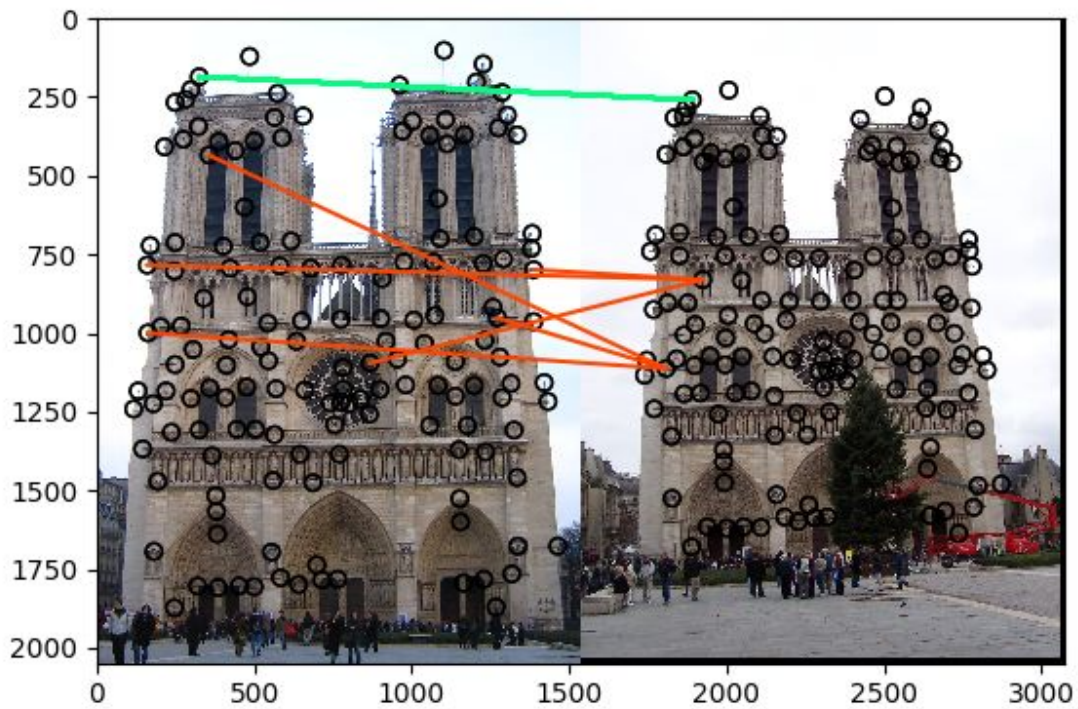

Hatem yehia 201600514

Intro:

The two main features that has the major effect in the results of the accuracy are the threshold for NNDR and the threshold that we use to discard some feature.

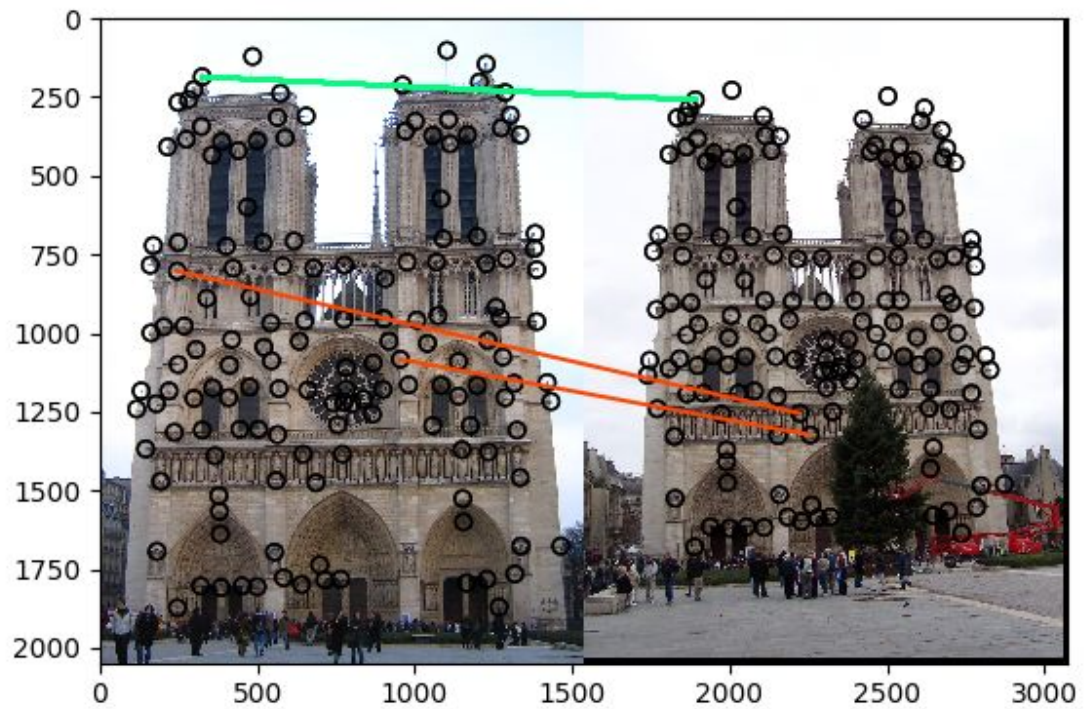

Some Results:

1. Thersold = .94 & all features

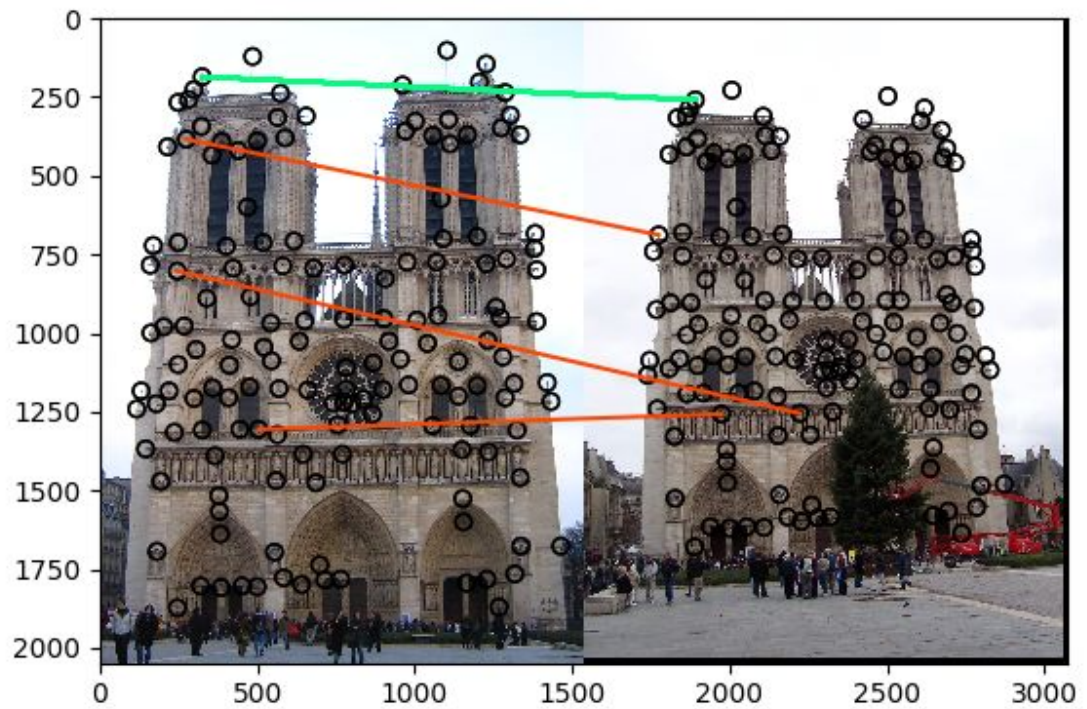

Accuracy 85%

2. Thersold = .94 & .8 * features

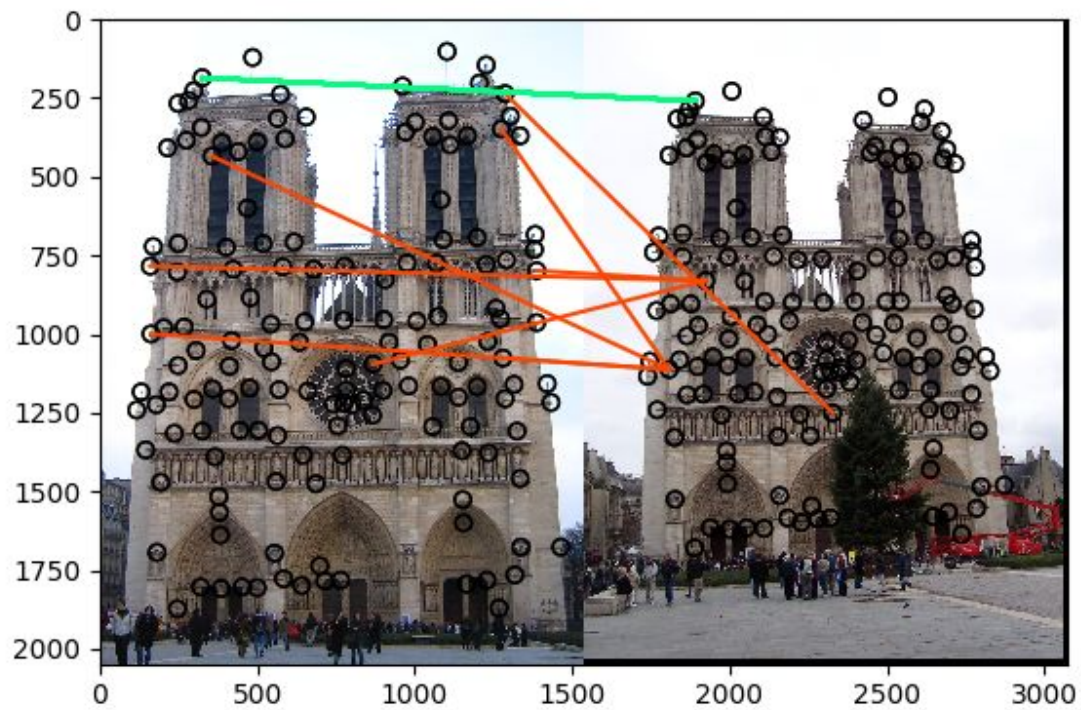

Accuracy = 96%

3. Threshold .95 & all features

Accuracy 76%

4. Threshold .95 & .8 * features

Accuracy 93%
